

VE-MODULAR KIT

Application example

THE MULTI TALENT BASED ON EPOXY-NOVOLAC-VINYLESTER RESIN **OXYDUR VE BK**

Available modular systems:

- Primer
- Filler
- Laminate
- Broadcast coating
- Broadcast coating cond.
- Vinylester concrete for shaped bricks

Basic components:

- ▶ Oxydur-VEU-Solution
- ▶ Oxydur-Accelerator D
- ▶ Oxydur-Hardener C

Main features:

- Same solution, accelerator and hardener for all system variants
 - ▶ Barrel / IBC also possible
- Error quote minimised
- Effort for production and logistic reduced
- Less disposal costs due to fewer different containers on-site
- Cost optimisation

Fields of application:

- Construction sites, on which cost and logistics shall be optimized
- Work in water pollution control environment if the basic components are already available on-site
