

Please note when entering production sites on a guided tour:

We do a lot for the safety of people and the environment. Please read the following information carefully for your own safety and act accordingly, even if you are only on our premises for a short time.

Safety does not tolerate compromises!

Use the sidewalks and crosswalks.

Wear the safety vests provided by us.

Wear the prescribed protective equipment. You can obtain the necessary equipment from your contact person if required.

The rules of the German traffic regulations apply on site. The maximum speed is **10 km/h**. During operations with blue lights and sirens, all emergency vehicles have priority.

Smoking is strictly prohibited on site. Rooms in which smoking is permitted are specially marked.

Photography and filming are generally prohibited; exceptions require special permission.

There is an absolute ban on alcohol on site. Carrying alcohol is also prohibited.

Do not step under suspended loads.

Keep a safe distance from machinery and equipment.

Operating areas with potentially explosive atmospheres are marked with "EX". In these marked areas, the carrying and use of non-Ex-protected devices is prohibited (e.g. cell phones, smartwatches, fitness bracelets, hearing aids, lighters, etc.).

SAFETY ON SITE

FOR GUESTS

A guide for a safe stay on our company premises in Höhr-Grenzhausen.

Information about the company

Founded in 1908, the Steuler Group is now one of the world's leading specialists for industrial linings and equipment engineering. Sustainable workmanship, innovative technologies and over 2,200 team players with years of expertise at 20 international locations are the guarantors of the Steuler Group's success.

Brief information about the location

Höhr-Grenzhausen has been the headquarters of the Steuler Group for more than 115 years. Around 200 employees work in the holding company management, Steuler Anlagenbau and the central service departments. More than 250 blue collar workers are employed in the production of ceramic materials, coating systems and plastic technology. In 2020, a new state-of-the-art tunnel kiln for firing refractory and acid-resistant bricks went into operation here. Höhr-Grenzhausen is also home to the Steuler Group's training center.

We would like to guide you safely through our factory site. To enable us to do this, a number of safety rules must be strictly observed. Please familiarize yourself with the listed rules and instructions and support us by acting prudently.

We wish you a **safe stay**.

Höhr-Grenzhausen

Check-in and check-out

When entering and leaving the company premises, please get in contact with our staff at the gate (Building 006).

Trained first aiders and defibrillators are available on site. In an emergency, speak to someone, the nearest first aider will call the emergency number.
